SUMMARY

I am a passionate Data Specialist with expertise in Data Engineering and Data Science. My enthusiasm for analytics, combined with a solid foundation in statistics and mathematics, drives my commitment to leveraging data for impactful solutions. Over the years, I have been involved in large-scale data infrastructure projects at a global level, working with major companies to develop, implement, and maintain systems that ingest raw data and generate high-quality, consistent information.

PROFESSIONAL EXPERIENCE

IBM, São Paulo, Brazil

March 2022 – Present

Data Specialist

- Responsible for developing, implementing, and maintaining systems and processes that ingest raw data and generate high-quality, consistent information to support downstream use cases. This includes managing end-to-end ETL processes while ensuring security, reliability, availability, elasticity, and scalability, all while optimizing costs.
- Worked with some of the largest telecommunications companies in Brazil as part of a team that led a large-scale data migration between companies.
- Developed and managed a unified data environment that eliminated silos and became the single source of truth for people analytics within the company.
- **Skills:** Python, Scala, SQL, Bash, Apache Airflow, Apache Spark, IBM DataStage, Informatica Power Center, Docks, Kubernetes, Git, GitHub, Statistical Modeling, Statistical Data Analysis, Python (Programming Language), Scrum.

Engetec, Natal, Brazil

May 2022 – March 2022

Data Analyst

- Consultant responsible for investigating and analyzing energy consumption in Brazilian cities, determining the revenue generated from taxes and the funds allocated for expenditures, enabling better financial balance.
- Audited energy consumption for cities in Brazil, providing technical engineering support and skilled programming knowledge that led, on average, an economy of 15% for clients.
- **Skills:** Data Analysis, SQL, Python, Pandas, Statistical Modeling, Data Modeling, Bash

MAN Truck and Bus, Munich, Germany

February 2016 – September 2016

Mechanical Engineer (internship)

- Intern Mechanical Engineer responsible for overseeing the logistics and operations of bodywork components, managing the entire process from manufacturing to production and final delivery, ensuring efficiency and quality throughout the supply chain and manufacturing process.
- Developed internal processes using VBA and Excel to simplify technology exchange among Volkswagen group companies, shorting wait time by 3 months.
- Prepared plans for mechanical verification, product development, and factory processes.
- Coordinated Volkswagen group presentations in expositions meetings.
- **Skills:** Computer-Aided Design (CAD), Project Management, Operations Management, Logistics Management, Supply Chain Management, Lean Manufacturing

EDUCATION

Fundação Getulio Vargas (FGV), Brasília, Brazil

June 2023 – April 2025

Master of Business Administration in Big Data and Business Analytics

- **Grade:** 9.7
- **Course Syllabus:** Exploratory Data Analysis, Database and Visualization, Statistical Inference, Predictive Analysis, Time Series Analysis, Spatial Statistics, Informational Modeling, Matrix Methods and Cluster Analysis, Market Decisions and Applications, Social Media Analysis and Text Mining, Distributed Databases, Advanced Statistical Modeling, Advanced Predictive Analysis, Business Decisions and Logic Thinking.

Universidade Federal do Rio Grande do Norte, Natal, Brazil

February 2016 – September 2019

Bachelor of Science in **Mechanical Engineering**

- **Grade:** 7.8
- **Course Syllabus:** Foundations in Statics and Dynamics, Mechanical Vibrations, Thermodynamics, Fluid Dynamics, Stress Analysis, Mechanical Design, Technical Drawing, Industrial Maintenance, CAD/CAE, Programming and Algorithms, Finite Element Methods.
- **Dissertation:** Topology Optimization Method Integrated to Product Development Process.
- Completed course among top 1% students with best academic performance index.
- Completed one-year study abroad with Westsächsische Hochschule Zwickau (Germany).
- Overall champion in international competition (COBRUF 2018) for rocket constructors.
- **Skills:** Finite Element Analysis (FEA), Computer-Aided Engineering (CAE), Computer-Aided Design (CAD), Algorithms, Dynamics, Statics, Mechanical Vibrations, Thermodynamics, Fluid Dynamics, Computational Fluid Dynamics (CFD), Finite Element Methods, Topology Optimization.

Westsächsische Hochschule Zwickau, Zwickau, Germany

February 2015 – February 2016

University of Applied Science – **Automotive Engineering and Management**

- Master program partnership at a German university, as part of the Mechanical Engineering course at the Federal University of Rio Grande do Norte, Brazil.
- **Skills:** Project Management, Product Development, Product Design.

VOLUNTEER

COBRUF Association, Brazil

March 2023 – October 2023

Non-profit organization in the aerospace sector

- **COBRUF** is a non-profit association that organizes events, festivals, and rocket-building competitions to promote the aerospace industry.
- As a member of the electronics team, our main objective was to develop advanced technology for rockets, generate data, and use it to power other rocket systems. Additionally, we worked on creating solutions for transmitting data from the rocket to the ground and making it available in an analytical environment for further exploration.
- Collaborated with multidisciplinary teams to integrate electronics into the rocket system.

COURSES

Vox2You, Brasília, Brazil

July 2024 – February 2025

Public Speaking School

- **Course Syllabus:** Naturalness, Eye Contact, Gestures and Facial Expressions, Fluency, Voice Modulation, Public Reading, Parts of Speech, Punch!, Analogy Applied to Public Speaking, Storytelling, Visual Aids, Mental Triggers, Conviction in Words, Rapport, Persuasive Argumentation, Memorization.

SKILLS & OTHER

Certifications: IBM Certified Technical Advocate – Cloud v5 (2024), IBM Cloud Technical Advocate Foundations V2 (2024), IBM Watsonx Essentials (2024), Google Cloud Certified Cloud Digital Leader (2023), Telecommunications Industry Jumpstart (2023), Quantitative Trading (2023), IBM Data Engineering Professional Certificate (2022), NoSQL Databases Essentials (2022), Data Warehousing and BI Analytics Essentials (2022), Relational Database Administration Essentials (2022).

Skills: Data Engineering, Data Science, Data Analysis, Statistical Modeling, ETL, Big Data Processing, Distributed Databases, NoSQL Databases, Machine Learning, Predictive Analytics, Spatial Statistics, Data Visualization, Business Analytics, Project Management, Operations Management, Logistics Management, Supply Chain Management, Lean Manufacturing, Agile, Scrum, Design Thinking.

Tools: Python, Scala, SQL, Bash, VBA, Apache Spark, Apache Kafka, Apache Airflow, Informatica Power Center, IBM DataStage, Docker, Kubernetes, Amazon Web Services (AWS), Google Cloud Platform (GCP), Git, GitHub.

Languages: Portuguese (native), English (fluent), German (advanced).

Interests: Reading, Programming, Music, Technology, and Sports.
